

Exhibit 7

The Honorable Ronald B. Leighton

**UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON
AT TACOMA**

SHERYL FIFE, individually and on
behalf of all others similarly situated,

No. 2:18-cv-00565-RBL

Plaintiff,

v.

SCIENTIFIC GAMES CORP., a Nevada
corporation,

Defendant.

1 **DECLARATION OF DONNA REED**

2 I, Donna Reed, pursuant to 28 U.S.C. § 1746, declare as follows:

3 1. I first started playing Jackpot Party Casino in 2013 after a friend sent it to me. It
4 was addictive right away.

5 2. I would play Jackpot Party Casino 7 days a week for probably 5 to 6 hours a day.

6 3. I believe that I've spent at least \$30,000 on Jackpot Party Casino over the 6 years
7 that I played. I didn't spend that much at first. But once I retired and started going through
8 marital problems, it became my vice. I didn't realize how much I was spending.

9 4. I am married to a very controlling man and he spends money like water on things
10 he wants such as classic cars and photography equipment. I would just stay home and take care
11 of our 4 dogs. It got to where Jackpot Party Casino was the only outlet I had in my life. And it
12 got out of control.

13 5. I saw my husband spending all this money so I thought to myself, "look I can do
14 the same." It's so easy to spend money from home so you keep purchasing because you don't
15 realize how much you're spending at the time. I work at a casino now and I don't gamble at all
16 there; Jackpot Party makes it so easy to gamble from your own home.

17 6. I am going through a divorce right now, in part because of how much money I
18 spent on Jackpot Party. This has made it very difficult to stop playing and spending. But I have
19 cut down my spending because I just don't have the money anymore.

20 7. I believe Scientific Games has acted unfairly and taken advantage of my
21 addiction. I began to lose more frequently when I was spending a lot and that meant that I had to
22 keep purchasing coins. Scientific Games will provide incentives to their top spenders so that they
23 continue to spend. I have received Christmas gifts two times. They have sent me a robe, oils,
24 phone charger, bath bombs, a blanket, and more. I know that they have sent other players flowers
25 and candies.

26 8. This game has changed my way of thinking and caring. I never thought I would
27 get addicted to anything except cigarettes, but this has taken too much of my life away. I don't

1 know how my life would be different without this game, but I know that it would be better and I
2 know that I would be much better off financially. I am going to try to get some help and I think
3 these games of gambling should be banned from the internet. I wouldn't miss it if they got rid of
4 it. I wish it didn't exist.

5
6
7 I declare under penalty of perjury that the above and foregoing is true and correct.
